Grey House Publishing announces the 67th Edition of *Books in Print*

Grey House Publishing is proud to announce the 67th edition of *Books in Print*. For over 50 years, *Books in Print* has served the library and book trade communities as the definitive bibliographic resource. This fully-updated edition features more than 401,000 new titles and more than 471,000 new ISBNs, to offer unparalleled coverage of the full range of books currently published or distributed in the United States.

Books in Print contains more than 1.6 million active titles published from 2007 and on, along with millions of active ISBNs representing more than 75,000 US publishers.

Entries include title, author, editor, translator, volumes, pages, language, publication year, price, ISBN, imprint and publisher. All editions and bindings are listed, including hardcover, paperbound, library binding, perfect binding, board books, spiral binding, text editions, teachers' and student editions, workbooks, lab manuals and supplements. Three indexes (title, author, publisher name, and wholesaler and distributor) allow the user to find titles and publishers quickly and easily.

Books in Print is the standard in its field. Acquisitions librarians, cataloging librarians and book stores in need of bibliographic information will all benefit from this important resource. It is a must in keeping pace with the hundreds of thousands of changes happening in the publishing industry each year.

Also available are two companion titles to *Books in Print*: *Books in Print Supplement* and *Subject Guide to Books in Print*.

Books in Print Supplement is a mid-year supplement that provides the latest book publishing updates for the past six months. This resource is crucial in ensuring that libraries and bookstores have access to the most accurate information throughout the year.

Subject Guide to Books in Print gives the library cataloger a master subject reference to titles, authors, publishers, wholesalers, and distributors in the United States. This important reference makes easy work of locating all of the in-print titles within a particular subject area.
