**Grey House Publishing announces the Summer 2007 Edition of
*TheStreet.com Ratings' Guide to Bond and Money Market Mutual Funds***

Grey House Publishing is proud to announce the publication of the Summer 2007 Edition of *TheStreet.com Ratings' Guide to Bond and Money Market Mutual Funds*. Formerly published by Weiss Ratings and TheStreet.com Ratings, this is Grey House Publishing's first edition.

TheStreet.com Ratings operates with a strong commitment to consumers, and an emphasis on education and empowerment. Taken together with a tradition of independence from the insurance companies started by Martin Weiss himself, users can be certain that they are receiving the most thorough, accurate, timely, and unbiased ratings available.

All of *TheStreet.com Ratings' Guides* are published quarterly, utilize an easy-to-use, A-F rating system (similar to school grading systems), and contain more comprehensive and up-to-date ratings than any of their competitors. This Summer 2007 edition of *The Street.com Ratings' Guide to Bond and Money Market Mutual Funds* gives insight into the risk-adjusted performance and analysis of more than 4,600 fixed income funds.

The Street.com Ratings' Guide to Bond and Money Market Mutual Funds is divided into eight sections, in addition to an introductory section and a thorough Appendix. Inside the front cover of the book are definitions of each letter grade, this explanation is useful for quick-reference as the user is researching funds in the Guide.

The introductory section begins by welcoming the user and laying out TheStreet.com's mission statement. Then follows a "How To Use This Guide" orientation to the book. The final components of this section are an explanation of the Investment Ratings used in the book and a page of important warnings and cautions for the user to take into account when considering investments.

Section I is an Index of Bond and Money Market Mutual Funds. This section is an analysis of all rated and unrated Fixed Income Mutual Funds, listed alphabetically by fund name. Each company represented is measured on factors such as: Fund Type, Overall Investment Rating, Performance Rating/Points, 3-Year Total Return, Expense Ratio, Standard Deviation, Cash %, Portfolio Turnover Rate and many more, 34 in total.

Grey House Publishing announces the Summer 2007 Edition of *TheStreet.com Ratings' Guide to Bond and Money Market Mutual Funds*

Section II is a summary analysis of the 381 largest retail Fixed Income Mutual Funds receiving a Street.com Investment Rating. These summaries are made up of several components and also contain graphs and charts to assist the user in understanding the data. Components of the analyses include: Investment Rating, Major Rating Factors, Services Offered, and Fund Family. Complete contact information is also listed.

Section III and IV contain a summary analysis of TheStreet.com's Top and Bottom 200 Bond Mutual Funds. Each list is a compilation of those Bond Mutual Funds receiving the highest or lowest Investment Rating, listed in order by Overall Rating.

Section V, Performance: 100 Best and Worst Bond Mutual Funds, is a compilation of those Fixed Income Mutual Funds receiving the highest and lowest Performance Ratings, listed in order by rating. This rating is based solely on each fund's financial performance over the past three years. This section is most commonly used to identify those funds that have historically given shareholders the highest returns on their investments.

Section VI, Risk: 100 Best and Worst Bond Mutual Funds is a compilation of those Fixed Income Mutual Funds receiving the highest and lowest Risk Ratings, listed in order by rating. This rating is based solely on each fund's level of credit risk and interest rate risk. This section is most commonly used to identify those funds that have historically given shareholders the most consistent returns on their investments.

Section VII and VIII identifies the Top 100 Rated Bond Mutual Funds by Risk Category and by Fund Type. Each is a compilation of those Fixed Income Mutual Funds receiving the highest TheStreet.com Investment Rating within each risk grade and type of fund, listed by Overall Investment Rating.

The Street.com Ratings' Guide to Bond and Money Market Mutual Funds ends with an Appendix containing three sections: What is a Mutual Fund, An Investor Profile Quiz and Performance Benchmarks. A Descriptions Section is also included, which contains the most important terms used throughout the publication.

TheStreet.com Ratings' Guide to Bond and Money Market Mutual Funds will provide investors with a reliable source of investment ratings on a timely basis and offers the most comprehensive, accurate, and independent analyses of Bond Mutual Funds. Presented in an accessible format, users at any level can easily navigate through the guide. TheStreet.com's unique investment rating system makes it easy to see exactly which funds are worth investing in and which to avoid.

Anyone looking for accurate, unbiased ratings and data will benefit from *TheStreet.com Ratings' Guide to Bond and Money Market Mutual Funds*. Whether you're an investing novice or professional, this Guide gives you everything you need to find a mutual fund that is right for you.
