**Grey House Publishing announces the 2015 Edition of
Food and Beverage Market Place
Now With Free Companion Online Access**

Grey House Publishing is proud to announce the publication of the *2015 Edition of Food & Beverage Market Place*. This is the most comprehensive resource of U.S. food and beverage manufacturers and service suppliers available on the market today. In addition to the 3-volume print edition, *Food & Beverage Market Place* is also available for subscription online with full searching capabilities.

The new edition of *Food & Beverage Market Place* provides 4,300 pages of over 45,000 detailed company profiles for complete coverage of all sectors of this dynamic industry – finished goods and ingredient manufacturers, equipment and third party logistics providers, including transportation, warehousing, wholesalers, brokers, importers and exporters. Each of the eight chapters reflects our yearlong research efforts.

As the wants and needs of the population continue to change, the food and beverage industry—and *Food & Beverage Market Place*—continues to keep pace. This highly informative and detailed reference has proven to be an extremely useful resource for those that work in food, beverage, and ingredient manufacturing or third party logistics, including transportation, warehousing, wholesalers, brokers, importers and exporters.

Volume 1: Food, Beverage & Ingredient Manufacturers.

The first section is a list of all the categories in which the products are listed. These categories range from Abalone to Zinc Citrate, and every product in between. The second section is a list of all the manufacturers associated with the products listed in the first section. These manufacturers are listed alphabetically by Product Category in a layered list format.

The third section is a list of the over 15,000 food and beverage manufacturers—all those which are listed in the second section. These expanded profiles include complete contact information; key executives and company data such as estimated annual sales, number of employees and brands produced.

Volume 2: Equipment, Supply & Service Providers.

It begins with a product category list, which includes everything from Adhesive and Backers Magnet Label to Vacuum Bags and Zipper Application. The second section, as in Volume 1, is the list of producers for each product in the first section.

Volume 3: Third Party Logistics

The third section contains over 18,000 company profiles within this volume, again including basic contact information along with company data as outlined above. In addition to company profiles, this edition has 19 Indexes, 17 chapter-specific, arranged by geographic region, product or company type, and two – All Brands and All Companies – that comprise all three volumes.

Our extensive indexing makes quick work of locating exactly the company, product, or service users are looking for. Plus, chapters include User Guides that help researchers to navigate chapter-specific data.

FREE ONLINE ACCESS

Print edition buyers receive one year of Free Online Access to *Food and Beverage Market Place* online. Subscribers can search this vast database in thousands of ways –by brand name, geographic location, sales volume, employee sizes, product category, and so much more.

Plus, users can print out prospect sheets or download data into their own spreadsheet or database. This database is a must for anyone marketing a product or service to this vast industry. Visit the site at: <http://gold.greyhouse.com>, or call 800-562-2139 for a free trial.

Praise for the previous edition:

"Each volume contains helpful user guides and key that describes the fields of data that appear in that chapter. The publisher includes more fax numbers, websites, company descriptions, executives, and brand names. This publication is essential for researchers in the food industry, and large academic and public libraries." -ARBA

"This is an excellent resource... Recommended for academic, public, and corporate libraries." -CHOICE

"An essential purchase for those in the food industry but will also be useful in public libraries where needed. Much of the information will be difficult and time consuming to locate without this handy three-volume ready-reference source." -ARBA
