## **Grey House Publishing announces the Eighth Edition of *The Grey House Homeland Security Directory***

Grey House Publishing is proud to announce the publication of the eighth edition of *The Grey House Homeland Security Directory*.

This eighth edition offers current, comprehensive data on the thousands of agencies and individuals in charge of homeland security, at both Federal and State levels. It also includes detailed profiles of private sector companies that provide products and services to the homeland security industry. This combined approach, with 5,242 listings and 11,272 key executives, has made this the most comprehensive resource available on homeland security since the creation of the Department of Homeland Security after 9/11/01.

*The Grey House Homeland Security Directory* is divided into five main sections: Federal Agencies, State Agencies, Manufactures & Suppliers, Industry Resources and Indexes. These main sections are divided into chapters and subchapters, making it quick and easy to locate specific information.

The first section, **Federal Agencies**, is made up of 18 main chapters and 12 subchapters, detailing 510 listings. These chapters deal with the Department of Homeland Security, its Directorates, and relevant branches of the Federal Government. Each chapter begins with a listing of the department or branch's headquarters, formatted with gray shading for quick recognition. Listings are accompanied by a clear, concise description of how the agency is involved in homeland security, and all include a list of key officials, many with a direct phone line and email address.

The second section, **State Agencies**, contains 788 listings arranged into alphabetical state chapters. The listings are arranged in alphabetical order, for easy access. Inconsistency still exists among States in regard to homeland security resources, and this section provides comprehensive coverage of all those offices with responsibility for securing the homeland, before, during, or after disasters, including contingency planning agencies.

The first listing in each state chapter is the main Homeland Security office, and includes the Governor, Lieutenant Governor, Attorney General and the person most responsible for homeland security. Many listings include a direct phone line and email address. Following the main listing is an alphabetical list of

state agencies with homeland security responsibilities, including Emergency Management, State Police, Emergency Services Agencies, the National Guard, and many State Contingency Planning agencies.

Section Three, **Manufacturers & Suppliers**, begins with an alphabetical listing of the 753 products and services represented by the 3,219 companies following the Product Listing. These private companies manufacture products and provide services of value to the homeland security industry, ranging from Access Control Locking Systems to Work Station Security Software. We have focused on private sector companies involved in not only new technology such as biometrics, increasingly used for identification, fraud prevention, security, and consumer applications, but also those companies who play a significant role in improving existing technology such as access control. Each company profile, listed alphabetically, also includes a company description, address, phone, fax, and web site and a listing of the products and services it provides.

Section Four lists the 728 **Industry Resources**, with categories including Associations, Periodicals, Shows & Seminars, Directories, Databases and more. Each listing contains full contact information, a description of the resource, and the name of at least one key executive.

Section Five contains the three **Indexes**:

- ✧ Entry Name Index: an alphabetical list of all entries in the directory.
- ✧ Key Personnel Index: an alphabetical list of all government officials and key executives who have responsibilities related to homeland security.
- ✧ Products & Services Index: an alphabetical list of the products and services presented in Section Three.

*The Grey House Homeland Security Directory* has a wide audience and is an important reference for any company or agency that is in need of Homeland Security information, or that provides or services to Homeland Security departments. It is also a useful acquisition for the reference collection of all public libraries, university libraries and security agencies.

*The Grey House Homeland Security Directory* is available for subscription on G.O.L.D., Grey House Online Databases. This gives you immediate access to the most valuable homeland security contacts, plus offers easy-to-use keyword searches, organization type and subject searches, hotlinks to web sites and emails, and so much more. Call 800-562-2139 for a free trial, or visit <http://gold.greyhouse.com> for more information.

*“The publishers should be applauded for their efforts to offer readers a well-organized and significant contribution to the field of Homeland Security.”*
