**Grey House Publishing announces the Sixth Edition of  
*Nations of the World: A Political, Economic & Business Handbook***

Grey House Publishing is proud to announce the publication of the Sixth Edition of *Nations of the World: A Political, Economic & Business Handbook*. A valuable reference resource, *Nations of the World* profiles every nation and self-governing territory around the world. This new edition has been extensively updated, offering valuable, current, and detailed information to individuals, students, businesspeople and politicians worldwide.

The world has experienced many changes in the last year, politically, economically and in weather. This newly updated 2006 edition reflects these political and economic changes, and takes into account the effects natural events such as the tsunami in southeast Asia, the earthquake in Pakistan and the hurricanes in the southern USA have had on trade and tourism. As the result of extensive, yearlong research, *Nations of the World* provides up-to-date, in-depth, comprehensive information, all in a single volume.

This new edition contains revised and updated profiles of over 200 nations, and includes 31 new heads of state, 64 new heads of government and 18 changes of ruling party. Contributors to the profiles are experts in their fields, international correspondents who have worked on some of the most influential books and periodicals in the world. This expertise and familiarity with the subject matter is what makes this edition the leader among its competition.

*Nations of the World* is divided into two major sections: The first is arranged in alphabetical order by country or territory, the second is a World Overview offering an entry on each of five regions around the world.

Each country chapter is divided into three parts. The first is an independently written **Country Overview**, covering current political and economic events. The second part is a

—continued—

Grey House Publishing announces the Sixth Edition of *Nations of the World: A Political, Economic & Business Handbook*

**Country Profile**, which includes detailed historical information, political structure and parties, and a thorough look at population, labor market, media, trade, industry, agriculture and energy. The final part of each country chapter is a **Business Directory**, which provides contact numbers and websites for hotels, travel information and chambers of commerce. Most chapters include a map with key places, and all chapters include a listing of key facts (official country name, ruling parties, language, population, unemployment and more), key indicators (population, GNP, foreign debt and exchange rate, among others) and a risk assessment (rates politics, economy and general stability of the region).

The World Overview section offers expertly written narrative on the political and economic climate of each of the five regions covered. This narrative includes key indicators, currencies and a map of the region.

For even easier access to information, *Nations of the World* is also available as a CD-ROM, free of charge to purchasers of the book. In this age of computerization, having this handy reference tool only a click away is a valuable and useful option.

*Nations of the World* is a vitally important resource in this era of globalization and increased mobility. This one-stop reference contains an unprecedented amount of up-to-date, comprehensive, and easily accessible information that will be a much-used addition to any library, public or private, academic or technical.
