Highlights of The New York State Directory, 2014/15:

This new edition has been greatly expanded, updated and improved to include even more in-depth information. Eight informative sections organize this wealth of up-to-date and comprehensive data.

- **Section One** includes three chapters – Executive Branch, Legislative Branch, and Judicial Branch of New York State government. This section profiles the public officials in the state’s executive departments, administrative agencies, and court system.
- **Section Two** contains 25 chapters covering the most significant public policy issue areas from Agriculture to Veterans & Military. Arranged in alphabetical order, each Policy Area chapter identifies the state, local, and federal agencies and officials that formulate or implement policy. All chapters conclude with a list of private sector experts and advocates who influence the policy process.
- **Section Three** is made up of four chapters with state and local public information: Public Information Offices, U.S. Congress Membership and Committees, County Government, and Municipal Government.
- **Section Four** includes three chapters – Political Parties, Lobbyists and Political Action Committees, all with detailed contact information.
- **Section Five** has two business chapters – Chambers of Commerce and Economic and Industrial Development Organizations. All listings include valuable contact information and key executives.

- **Section Six** is the News Media chapter. Here you'll find detailed listings for Newspapers, News Services, Magazines, Radio and Television stations that serve New York State. Listings include current contact information, plus valuable key executives.
- **Section Seven** covers Education with two chapters: New York State Colleges and Universities, and all Public School Districts in the state.
- **Section Eight** includes 249 current, comprehensive Biographies of all New York lawmakers – Executive, New York Assembly, New York Senate, U.S. Senate, and U.S. House of Representatives. Profiles include contact information, with e-mails, making it easy to contact these influential individuals.
