**Grey House Publishing announces the Eighth Edition of the
*Older Americans Information Directory***

Winner of the 2009 National Mature Media Award
Presented by the Mature Market Resource Center

Winner of the 2007 National Health Information Award
Presented by the Health Information Resource Center

Grey House Publishing is proud to announce the publication of the Eighth Edition of the *Older Americans Information Directory*.

This eighth edition of *Older Americans Information Directory* could not be timelier. It answers a variety of questions on the minds of older Americans – a population that is estimated to more than double from 38.9 million in 2008 to 72.1 million by the year 2030. The current generation of older Americans is older, healthier and smarter than just 20 years ago. *Older Americans Information Directory* is designed to help this growing population find the resources they need to continue leading long, happy, healthy and productive lives. The following lists just some of the issues addressed by the current, comprehensive data in this award-winning reference work

- ◆ How does the newly passed health care legislation affect me?
- ◆ Where do I find transitional support at the end of a hospital stay?
- ◆ Do nutritional guidelines change as I age?
- ◆ Who can explain my financial options on a fixed income?
- ◆ What legal resources can I access as a senior citizen?
- ◆ How can I keep my mind active and my body healthy?

-continued-

Grey House Publishing Announces the Eighth Edition of the *Older Americans Information Directory*

Following this Introduction are seven valuable articles, written in clear, concise language, on topics relevant to aging Americans. Several address specific health and emotional issues, such as *Aging and Your Eyes*, *Can Alzheimer's be Prevented?*, *Arthritis Advice*, and *Mourning the Death of a Spouse*. Others discuss more practical topics, like *Health Insurance Reform: A Guide for Seniors*.

All the listings in the Directory are thoughtfully organized into 12 major chapters, including *Organizations*, *Agencies*, *Awards*, *Continuing Education*, *Disability Aids*, *Health Conditions*, *Living Facilities*, *Legal Resources*, *Libraries* and *Print Resources*. Each listing includes current contact information, key personnel, and helpful descriptions.

This edition also includes two helpful appendices. The first is a *Glossary of Health & Medical Terms*, with 65 terms that define language found throughout this and other publications, as well as terms used by professionals in the field. The second is a *Glossary of Legal Terms*, that includes 22 in-depth definitions designed to demystify terms used by lawyers and others regarding legal situations that many older Americans are likely to find themselves in.

Three indexes offer additional ways to access this Directory's content. The *Entry Index* is an alphabetical list of all entries herein. The *Geographic Index* lists all Agencies, Associations, Facilities, and Organizations by state. The *Subject Index* organizes all listings by more than 100 categories, from Elder Abuse to Wills.

For the fastest access to information, the *Older Americans Information Directory* is now available through G.O.L.D., Grey House OnLine Databases. Subscribers to G.O.L.D. will have immediate access to the detailed listings contained in the print directory. With the *Older Americans Information Directory* Online Database, users will be able to conduct in-depth searches of the database to locate resources that meet specific search criteria, and all listings are accompanied by links to the listee's web sites and email addresses. Finding specific information and resources for older Americans has never been easier. For more information visit <http://gold.greyhouse.com>.

This title is a vital resource for any public, academic, or special library serving a senior population and for libraries supporting health sciences programs. Recommended for those working with the elderly, as well as upper-level undergraduates, graduate students, professionals/practitioners and general readers.
