Grey House Publishing announces the Third Edition of *Profiles of Wisconsin*

Grey House Publishing, is proud to announce the publication of the third edition of *Profiles of Wisconsin—Facts, Figures & Statistics for all 2,082 Populated Places in Wisconsin*.

This third edition provides data on all populated communities and counties in the State of Wisconsin, from bustling urban centers to hard-to-find outposts. This premier reference work includes five major sections that cover everything from Education to Ethnic Backgrounds to Climate. All sections include comparative Statistics or Rankings. New to this edition is an “About Wisconsin” section. Here is an overview of each section:

1. About Wisconsin

This NEW 4-color section gives the researcher a real sense of the state and its history. It includes a Photo Gallery, and comprehensive sections on Wisconsin’s Government, Land and Natural Resources, and Demographic Maps. With charts and maps these 45 pages help to anchor the researcher to the state, both physically and politically.

2. Profiles

This section, organized by county, gives detailed profiles of 2,082 places plus 72 counties, based on the 2010 Census and data from the American Community Survey. In addition, we have added current government statistics and original research, so that these profiles pull together statistical and descriptive information on every Census-recognized place in the state. Major fields of information include: Geography, Housing, Education, Religion, Ancestry, Transportation, Population, Climate, Economy, Industry and Health.

—continued—

3. Education

This section begins with an Educational State Profile, summarizing the number of schools, students, diplomas granted and educational dollars spent. Following the state profile are School District Rankings on 16 topics ranging from Teacher/Student Ratios to High School Drop-Out Rates. Following these rankings are Statewide National Assessment of Educational Progress (NAEP) results and data from the Wisconsin Knowledge & Concepts Examinations (WKCE)-an overview of student performance by subject, including easy-to-read charts and graphs.

4. Ancestry and Ethnicity

This section provides a detailed look at the ancestral, Hispanic and racial makeup of Wisconsin's 200+ ethnic categories. Profiles are included for the state, for all 72 counties, and for all places with 50,000 or more residents. In the ranking section, data is displayed three ways: 1) by number, based on all places regardless of population; 2) by percent, based on all places regardless of population; 3) by percent based on all places with populations of 50,000 or more. You will discover for example that Green Bay has the greatest number of Belgians in the state (9,328), and that 54.0% of the population of Randolph are of Dutch ancestry.

5. Climate

This section includes a State Summary, three colorful maps and profiles of both National and Cooperative Weather Stations. In addition, you'll find Weather Station Rankings with hundreds of interesting details, such as Bayfield reporting the highest annual snowfall with 101.2 inches.

This section also includes Significant Storm Event data from January 2000 through December 2009. Here you will learn that a hail storm caused \$500 million in property damage in Columbia County in June 2006 and that heavy fog was responsible for 11 deaths in Ozaukee and Sheboygan Counties in October 2002.

Profiles of Wisconsin has been extensively and several new chapters of demographic information and ranking sections have been added, so that the third edition of *Profiles of Wisconsin* is the most comprehensive portrait of the State of Wisconsin ever published.
