Grey House Publishing is proud to announce the publication of the Spring 2011 Edition of *TheStreet Ratings' Guide to Stock Mutual Funds*.

Grey House's new Financial Ratings Series combines the strength of Weiss Ratings and TheStreet Ratings to offer the library community with a single source for financial strength ratings and financial planning tools covering Banks, Credit Unions, Insurers, Mutual Funds and Stocks. The financial strength ratings from Weiss Ratings & TheStreet Ratings provide accurate, independent information that library patrons need to make informed decisions about their financial planning.

All of TheStreet Ratings' Guides are published quarterly, utilize an easy-to-use, A-F rating system (similar to school grading systems), and contain more comprehensive and up-to-date ratings than any of their competitors. This Spring 2011 edition of *TheStreet Ratings' Guide to Stock Mutual Funds* provides investors with a reliable source of investment ratings and analyses of 8,800 Equity Mutual Funds on a timely basis. The guide is divided into eight sections, in addition to an introductory section and a thorough Appendix. Inside the front cover of the book are definitions of each letter grade, this explanation is useful for quick-reference as the user is researching companies in the Guide.

The introductory section begins by welcoming the user and laying out TheStreet's mission statement. Then follows a "How To Use This Guide" orientation to the book. The final components of this section are an explanation of the Investment Ratings used in the book and a page of important warnings and cautions for the user to take into account when considering investments.

Section I is an **Index of Stock Mutual Funds**. This section is an analysis of all rated and unrated Equity Mutual Funds, listed alphabetically by fund name. Each company represented is measured on factors such as: Fund Type, Overall Investment Rating, 6-Month Total Return, 3-Year

-continued-

Total Return, Dividend Yield, Expense Ratio, Cash %, Portfolio Turnover Rate and many more, 34 in total.

Section II is a **summary analysis of the 183 largest retail Equity Mutual Funds** receiving a TheStreet Investment Rating. These summaries are made up of several components and also contain graphs and charts to assist the user in understanding the data. Components of the analyses include: Investment Rating, Major Rating Factors, Fund Family, Fund Type, Services Offered and Ticker Symbol. Complete contact information is also included.

Section III and IV contain a summary analysis of **TheStreet's Top and Bottom Equity Mutual Funds**. Each list is a compilation of those Funds receiving the highest or lowest Investment Rating, listed in order by Overall Rating.

Section V, Performance: **100 Best and Worst Stock Mutual Funds**, is a compilation of those Equity Mutual Funds receiving the highest and lowest Performance Ratings, listed in order by rating. This rating is based solely on each fund's financial performance over the past three years. This section is most commonly used to identify those funds that have historically given shareholders the highest returns on their investments.

Section VI, Risk: **100 Best and Worst Stock Mutual Funds** is a compilation of those Equity Mutual Funds receiving the highest and lowest Risk Ratings, listed in order by rating. This section is most commonly used to identify those funds that have historically given shareholders the most consistent returns on their investments.

Section VII and VIII identifies the **Top Rated Stock Mutual Funds** by Risk Category and by Fund Type. Each is a compilation of those Equity Mutual Funds receiving the highest TheStreet Investment Rating within each risk grade and fund type, listed by Overall Investment Rating.
