Grey House Publishing announces the Second Edition of
The Encyclopedia of War Journalism 1807 – 2010

"This dictionary's brief, readable alphabetical entries cover all aspects of war journalism, including war correspondents, from the Mexican War to Vietnam.... this source is an excellent starting point for beginning researchers and librarians seeking ready reference material."

-CHOICE

This second edition of *The Encyclopedia of War Journalism* is the first published by Grey House Publishing. The first edition, *The Historical Dictionary of War*, was published by Greenwood Press in 1997. This significantly updated work includes a substantial amount of new material and features, and is better reflected by its new name.

Combining over 800 A-Z Entries, with Primary Documents and an Historical Timeline, this new edition is both a starting point and a detailed research tool. This updated edition is an important, timely addition to the reference collections of public, university and high school libraries along with journalism and military history collections.

Expanded by 30%, there are **200 more entries** than the first edition. The A-Z section includes correspondents, illustrators, photographers, periodicals, publishers and many more. Each entry includes additional sources and cross-references throughout to facilitate individual research.

Grey House Publishing announces the Second Edition of *The Encyclopedia of War Journalism*

New additions and updates to this edition include:

- ✍ **NEW Primary Documents & Photographs: 50 documents and photographs.** Chosen to represent not only a variety of approaches to war coverage, but how improved communication has affected journalism in this field. Photographs range from the Crimean War in the 1850's, to 2009 photos of caskets of fallen Americans, after a ban preventing such photos was lifted in April of that year.
- ✍ **NEW Timeline:** Benchmarks 200 years of significant technical advances, history-making firsts, censorship, new scoops, and founding dates of publications, journalist's organizations and the winning of awards.
- ✍ **21 Appendices:** Lists of individual correspondents and photographers for specific wars. Appendices include many Pulitzer Prize winning war correspondents and those who appeared in war films.
- ✍ Selected Bibliography section and a detailed Index round out this heavily updated resource.

With thoughtful, detailed coverage of war journalism around the world, this updated reference tool will be a helpful addition to the reference collections of public, university and high school libraries along with journalism and military history collections.
