**Grey House Publishing announces the Winter 2023 Edition of
*Weiss Ratings' Guide to Banks***

Grey House Publishing is proud to announce the publication of the Winter 2023 Edition of *Weiss Ratings' Guide to Banks*. Published four times per year, *Weiss Ratings' Guide to Banks'* purpose is to provide accurate, unbiased ratings and data to help consumers and businesses choose a commercial bank, savings bank, or savings and loan for themselves, family, company, or their clients.

The Winter 2023 edition of this guide is divided up into five sections: Introduction, Index of Banks, Weiss Recommended Banks by State, Ratings Upgrades and Downgrades, and an Appendix Section.

The **Introduction** includes “**How to Use This Guide**” as well as an explanation about Weiss Safety Ratings and Important Warnings and Cautions when it comes to banks.

Section I, **Index to Banks**, contains Weiss Safety Ratings, key rating factors, and summary financial data for all U.S. federally-insured commercial banks and savings banks. Companies are sorted in alphabetical order, first by company name, then by city and state.

The Weiss Ratings are calculated based on a complex analysis of hundreds of factors that are synthesized into five indexes: capitalization, asset quality, profitability, liquidity and stability. Each index is then used to arrive at a letter grade rating.

Section II provides a list of **Weiss Recommended Banks by State** and contains all financial institutions receiving a Safety Rating of A+, A, A-, or B+. Recommended institutions are listed in each state in which they currently operate one or more branches.

Section III, **Ratings Upgrades and Downgrades** identifies those institutions receiving a rating change since the previous edition of this publication, whether it be a rating upgrade, rating downgrade, newly rated company or the withdrawal of a rating.

Finally, the **Appendix** section includes **Recent Bank Failures** of 2015-2022, a **Comparison Guide** between banks and credit unions, and a **Glossary**.
