Grey House Publishing and Weiss Ratings are proud to announce the fourth installment to our popular Financial Literacy line, *How to Become an Investor*.

Designed for anyone who wants to know more about investing but isn't sure where to start, these volumes break through the financial jargon to provide you with real world information to help you learn about investing, determine how aggressive or conservative your investments should be, and find out which investments are right for your situation. Written in an easy-to-follow, informative style, these guides walk you through the various types of investment options, providing sound guidance and need-to-know information along the way.

Each volume is devoted to a specific topic about investing. Combined, they provide a full range of helpful information on the many investment options, their risks and rewards, and how to get started on your path towards investing. Individual volumes cover the following topics:

- What is Investing?
- Brokerage Firms
- Financial Advisors
- All About Investment Fees
- What Type of Investor Are You?
- Alternative Investments
- Tax Consequences

These guides will help readers conquer fears they may have about investing, help patrons determine what types of investments are right for their situation, help choose investments based on their income and risk tolerance, and help them make the best informed decisions about their money and retirement planning. All volumes end with a selection of recommended investments or institutions, helpful resources, a glossary of relevant terms, and other valuable information.
