Grey House Publishing Announces the 2024 Edition of The *Guide to Venture Capital & Private Equity Firms*

This twenty-eighth edition of the *Guide to Venture Capital & Private Equity Firms, Domestic & International* is a comprehensive database of more than 3,100 of the most active venture capital and private equity firms operating today, domestically and internationally. All company profiles include current contact information and specific industry data for a detailed picture of the firm and its investment parameters. Profiles include headquarters, other locations and branches, industry group preferences, average investment, portfolio companies, investment criteria and detailed lists of key executives.

As with previous editions, this 2024 edition includes a User Guide, followed by two industry reports that offer insight into the current state of this dynamic industry segment: *KPMG Enterprises—Venture Pulse Q3 2023, Global Analysis of Venture Funding*; and *Cambridge Associates—2024 Outlook*. Highlights include:

- VC investment in the U.S. was soft in 2023 as investors remained shy, falling marginally in Q3
- The IPO market has been tightly shut for over a year, but there are signs of a comeback, including some notable IPOs launched in Q3 '23, and major companies preparing for when the market opens back up
- With a lull in investments, VC firms have been more hands-on with their existing portfolio companies in an attempt to ensure profitability
- M&A activity was subdued in Q3 '23 due to ongoing concerns about valuations, the higher cost of debt, and the lack of notable exits

The *Guide to Venture Capital & Private Equity Firms* is organized into four major sections: **Domestic Firms, Canadian Firms, International Firms, and National & State Associations**, each of which are listed alphabetically by name. All domestic, Canadian, and international profiles include: a mission statement, industry group preferences, portfolio companies, geographic preferences, average and minimum investments, and investment criteria. Each firm's partners are listed with extensive background information, such as education (including degree and school), professional background (including previous positions and companies), and

directorships held. The specificity of both the firm and its partners add to the value of each firm's profile. Information for firms headquartered overseas includes name, phone, fax, email and website.

This resource also contains five valuable indexes:

- **College/University Index:** Offers an alphabetical list of more than 1,000 educational institutions worldwide—and the venture capital executives who attended them. Each listing includes the reference number of the affiliated VC firm of the executive listed.
- **Executive Index:** An alphabetical list by last name of nearly 10,000 key partners and the listing number of their affiliated firm.
- **Geographic Index:** Organizes all firms by state for domestic listings and by country for international listings.
- **Industry Preference Index:** Alphabetically lists the more than 850 industry segments and the names of the firms that invest in them.
- **Portfolio Companies Index:** Alphabetically lists the 50,000 companies that received venture capital from a listed firm, and is referenced to that listing.

Free Online Access

Library buyers of the 2024 edition of the *Guide to Venture Capital & Private Equity Firms* receive a free One Year subscription to the title on the Grey House Online Database, G.O.L.D. With a subscription to G.O.L.D., users can search by Firm Name, Geographic Location, Geographic Preferences, Portfolio Companies, Industry Group Preferences, Average Investment, Fund Size, Investment Criteria, Managing Partners and much more.
