

Introduction

This is the fifth edition of *Profiles of Indiana—Facts, Figures & Statistics for 784 Populated Places in Indiana*. As with the other titles in our *State Profiles* series, it was built with content from Grey House Publishing’s award-winning *Profiles of America*—a 4-volume compilation of data on more than 43,000 places in the United States. We have updated and included the Indiana chapter from *Profiles of America*, and added several new chapters of demographic information and ranking sections, so that *Profiles of Indiana* is the most comprehensive portrait of the state of Indiana ever published.

Profiles of Indiana provides data on all populated communities and counties in the states for which the US Census provides individual statistics. This edition also includes profiles of 105 unincorporated places based on US Census data by zip code.

This premier reference work includes seven major sections that cover everything from **Education** to **Ethnic Backgrounds** to **Climate**. All sections include **Comparative Statistics** or **Rankings**. Here is an overview of each section:

1. About Indiana

This 4-color section gives the researcher a real sense of the state and its history. It includes a Photo Gallery, and comprehensive sections on Indiana’s History, Government, Land and Natural Resources, Energy and Demographic Maps. With charts and maps, these 42 pages help to anchor the researcher to the state, both physically and politically.

2. Profiles

This section, organized by county, gives detailed profiles of 784 places plus 92 counties, based on Census 2010 and data from the most recent American Community Survey. We have added current government statistics and original research, so that these profiles pull together statistical and descriptive information on every Census-recognized place in each state. Major fields of information include:

<i>Geography</i>	<i>Housing</i>	<i>Education</i>	<i>Religion</i>
<i>Ancestry</i>	<i>Transportation</i>	<i>Population</i>	<i>Climate</i>
<i>Economy</i>	<i>Industry</i>	<i>Health</i>	

NEW categories to this edition include data on selected monthly owner costs with and without a mortgage, the number of dentists per capita, and annual median and maximum Air Quality Index values.

3. Comparative Statistics

This section include tables that compare Indiana’s 100 largest communities by dozens of data points.

4. Community Rankings

This section include tables that rank the top and bottom 150 communities with population over 2,500, in dozens of categories.

5. Education

This section begins with an **Educational State Profile**, summarizing number of schools, students, diplomas granted and educational dollars spent. Following the state profile are **School District Rankings** on 16 topics ranging from *Teacher/Student Ratios* to *High School Drop-Out Rates*. Following these rankings are statewide *National Assessment of Educational Progress (NAEP)* results and data from the *Indiana Statewide Testing for Educational Progress-Plus (ISTEP+)*—an overview of student performance by subject.

6. Ancestry and Ethnicity

This section provides a detailed look at the ancestral, Hispanic and racial makeup of Indiana’s 200+ ethnic categories. Data is ranked three ways: 1) by number, based on all places regardless of population; 2) by percent, based on all places regardless of population; 3) by percent, based on places with populations of 50,000 or more. You will discover, for example, that the city of Crown Point has the greatest number of Macedonians in the state (901), and that 84.6% of the population of Raglesville are of French ancestry.

7. Climate

Each state chapter includes a State Summary, three colorful maps and profiles of both National and Cooperative Weather Stations. In addition, you'll find Weather Station Rankings with hundreds of interesting details, such as South Bend Michiana Regional reporting the highest annual snowfall with 67.3 inches.

This section also includes Significant Storm Event data from January 2000 through December 2009. Here you will learn that a flood caused \$150 million in property damage in Bartholomew County in June 2008 and that an F3 tornado was responsible for 20 deaths in Vanderburgh County in November 2005.

8. Index

This section includes a County and Place Name Index. The entries are alphabetized by place name, and includes the type of place (city, town, unincorporated, or CDP), and the county it resides in.

Note: The extensive **User Guide** that follows this introduction is segmented into four sections and examines, in some detail, each data field in the individual profiles and comparative sections for all chapters. It provides sources for all data points and statistical definitions as necessary.

Adams County

Located in eastern Indiana; bounded on the east by Ohio. Covers a land area of 339.028 square miles, a water area of 0.938 square miles, and is located in the Eastern Time Zone at 40.75° N. Lat., 84.94° W. Long. The county was founded in 1835. County seat is Decatur.

Adams County is part of the Decatur, IN Micropolitan Statistical Area. The entire metro area includes: Adams County, IN

FORT WAYNE (city). County seat. Covers a land area of 110.618 square miles and a water area of 0.214 square miles. Located at 41.09° N. Lat; 85.14° W. Long. Elevation is 810 feet.

History: The first fort at the site of Fort Wayne was Fort Miami, established in the 1680's by the French. Another stockade was built by Anthony Wayne in 1794. By 1819 a trading post and gristmill were started and more settlers appeared. When Allen County was organized in 1824, Fort Wayne was named as county seat. It was incorporated in 1829. The building of the Wabash & Erie Canal between 1832 and 1840 was a boost for Fort Wayne's economy. Fort Wayne may have claims to the first baseball game played under the lights at its League Park, where in 1883 an arc-lighting system illuminated the field for a game between a professional team from Quincy, Illinois, and a team of students from a Fort Wayne college.

Population: 262,450; Growth (since 2000): 27.6%; Density: 2,372.6 persons per square mile; Race: 74.2% White, 15.0% Black/African American, 4.3% Asian, 0.2% American Indian/Alaska Native, 0.1% Native Hawaiian/Other Pacific Islander, 4.2% Two or more races, 8.7% Hispanic of any race; Average household size: 2.46; Median age: 34.9; Age under 18: 25.7%; Age 65 and over: 13.4%; Males per 100 females: 93.8; Marriage status: 34.8% never married, 46.2% now married, 1.4% separated, 5.9% widowed, 13.2% divorced; Foreign born: 7.8%; Speak English only: 88.0%; With disability: 13.3%; Veterans: 7.3%; Ancestry: 26.1% German, 9.5% Irish, 6.5% English, 6.4% American, 3.2% French
