

Reviews

“Weiss ratings Guide to Banks is recommended to special libraries, larger public libraries, and academic libraries. This contains information suitable for researchers and consumers.”

- ARBA

“...this reference analyzes institutions based on their financial viability... **VERDICT: A truly relevant guide** to the postbailout era.”

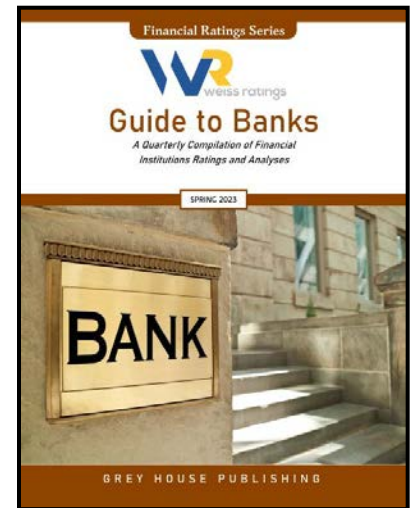

- Library Journal

“Weiss rates more financial institutions than its competitors and does so more accurately... large public and academic libraries most definitely need to acquire their work. Likewise, special libraries in large corporations will find this title indispensable.”

- ARBA

“...Ratings’ Guide is most recommended to special, research, and academic libraries supporting academic departments of banking and those in the profession. It should be considered for universities with Master’s programs in banking. It is recommended for larger research collections primarily.”
