

# Introduction

This twenty-sixth edition of *Business Information Resources* has been the premier reference book for business researchers since 1992. With comprehensive coverage of 102 industries, it provides ways to find new customers, increase loyalty among existing customers, and improve the bottom line. As America's economy continues to improve, current, comprehensive business information is more valuable than ever.

This reference work offers an unequalled collection of valuable, industry-specific resources. Reach out to new customers through industry **Associations, Directories, Databases, and Trade Shows**. Find new ways to cut costs and improve efficiency through **Magazines, Journals and Newsletters**. Learn what your competitors are up to by visiting the latest, most important **Web Sites**.

## New & Revised Content

The 102 industry chapters include Alternative Energy, Brewing & Distilling, Environment & Conservation, International Trade, Law Enforcement & Public Safety, National Security & International Affairs, Pharmaceutical Drugs & Devices, Real Estate, Social Media, Transportation and Water Supply. We have added more than 400 new records and made thousands of updates across all chapters. Included in the new records are listings that represent the up and coming cannabis industry. You'll find this information in Agriculture, Healthcare and Pharmaceutical Drugs & Devices chapters.

With 23,951 listings, this edition is the most comprehensive guide to business information on the market today. All listings include name, address, phone, fax, web site, email, key contacts and a brief description, making your research focused and productive. When available, we have indicated an association's social media presence.

Online-only information, however, is often confusing, unreliable, and outdated. The value of the focused, comprehensive data in *Business Information Resources*, compiled with the business researcher in mind, cannot be overstated. This edition provides immediate assistance with your business: attend industry Trade Shows to **promote your product and find new customers**; subscribe to Publications to **stay competitive and ahead of the curve**; join Associations for **business support and educational opportunities**.

The content in this 2019 edition breaks down as follows: 6,445 Associations; 2,938 Newsletters; 5,016 Magazines and Journals; 3,801 Trade Shows; 2,479 Directories and Databases; 3,020 Industry Web Sites; and 252 International Resources. Plus you'll find 57,619 contact names, 18,440 fax numbers, 18,201 web sites, and 12,754 e-mail addresses.

## 2019 Front Matter

**Small Business Office of Advocacy:** 9 pages of information that profiles small businesses nationwide, including statistics on income, owner demographics, turnover, industry, and interesting facts, such as start-ups vs. closures, and frequently asked questions.

**Content Summary of Chapter Listings:** Lists more than 1,600 specific businesses under each chapter name. For example, *Accounting* lists auditors, bookkeepers, payroll and taxes; *Engineering* includes cost engineers, geologists, and robotics; *Restaurants* covers bakers, cookware and caterers.

**NAICS and SIC Reference Tables:** Enable users to approach their topic based on the North American Industry Classification System (NAICS), or the Department of Labor's Standard Industrial Classification System (SIC).

**User Guide:** Defines fields for entry type. In addition to name, address, phone, fax, web site, e-mail, and description, *Associations* include number of members, dues and founding year. *Publications* include cost and frequency. *Trade shows* include location, number of exhibitors and attendees.

## Two Indexes

- *Entry Index*—Alphabetical list of all entries
- *Publisher Index*—Alphabetical list of publishers of industry literature, or sponsors of trade shows, etc. The entry number listed identifies the title of the published material/trade show listed in this directory. Note that publishers often offer additional material not included here.

*Business Information Resources* answers the need for well-organized, accessible business information for market researchers, advertising agencies, job placement and career planning offices, public relations personnel, and business schools and colleges—a need well-documented by one of the identified high-growth sectors: Information.

#### OVERALL UNITED STATES ECONOMY

- Multiple economic indicators consistently signaled a strengthening US economy in 2017. In the third quarter of 2017, the United States grew at an annual rate of 3.4%. The United States's 2016 growth rate of 1.5% was down from the 2015 rate of 2.7%. (Source: BEA)
- The employment situation in the United States continued to improve. In February 2018, the unemployment rate was 4.1%, down from 4.7% in February 2017. (Source: CPS)

#### EMPLOYMENT

Figure 1: United States Employment by Business Size (Employees)

- United States small businesses employed 58.9 million people, or 47.5% of the private workforce, in 2015. (Source: SUSB)
- Firms with fewer than 100 employees have the largest share of small business employment. Figure 1 provides further details on firms with employees. (Source: SUSB)
- Private-sector employment increased 1.8% during the 12-month period ending in February 2018. This was above the increase of 1.0% during the prior 12-month period. (Source: CPS)
- The number of proprietors increased in 2016 by 2.3% relative to the previous year. (Source: BEA)
- Small businesses created 1.9 million net jobs in 2015. Firms employing fewer than 20 employees experienced the largest gains, adding 1.1 million net jobs. The smallest gains were in firms employing 100 to 499 employees, which added 387,874 net jobs. (Source: SUSB)

The Small Business Profiles are produced by the US Small Business Administration's Office of Advocacy. Each report incorporates the most up-to-date government data to present a unique snapshot of small businesses. Small businesses are defined for this profile as firms employing fewer than 500 employees. Net small business job change, minority small business ownership, and exporter share statistics are based on the 2015 Statistics of US Businesses (SUSB), 2012 Survey of Business Owners (SBO), and 2015 International Trade Administration (ITA) data, respectively.

## INCOME AND FINANCE

- The number of banks decreased by 271 between June 2016 and June 2017 to 5,787 banks. (Source: FDIC)
- In 2016, 5.7 million loans under \$100,000 (valued at \$82.6 billion) were issued by United States lending institutions reporting under the Community Reinvestment Act. (Source: FFIEC)
- The median income for individuals self-employed at their own incorporated businesses was \$50,347 in 2016. For individuals self-employed at their own unincorporated firms, this figure was \$23,060. (Source: ACS)

Median income represents earnings from all sources. Unincorporated self-employment income includes unpaid family workers, a very small percent of the unincorporated self-employed.

## EMPLOYER BUSINESS OWNER DEMOGRAPHICS

Figure 2: United States Employees per Business by Owner's Demographic, 2015

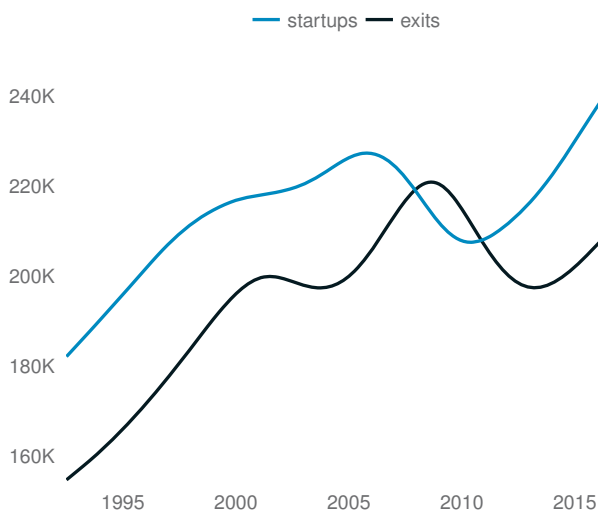

Figure 2 shows the average number of employees per employer business by owner's demographic group according to the Annual Survey of Entrepreneurs (ASE).

## TURNOVER AMONG ESTABLISHMENTS WITH EMPLOYEES

Figure 3: United States Quarterly Startups and Exits

- In the third quarter of 2016, 240,000 establishments started up, generating 872,000 new jobs in the United States. Startups are counted when business establishments hire at least one employee for the first time. (Source: BDM)
- In the same period, 215,000 establishments exited resulting in 749,000 jobs lost. Exits occur when establishments go from having at least one employee to having none, and then remain closed for at least one year. (Source: BDM)
- Figure 3 displays quarterly startups and exits from 1992 to 2016. Each series is smoothed across multiple quarters to highlight long-run trends. (Source: BDM)

The BLS data covers only business establishments with employees. BLS refers to startups as births and exits as deaths. These terms are distinct from the BLS openings and closings categories. Openings include seasonal re-openings and closings include seasonal shutterings. Quarterly startup and exit values may not align with Figure 3 due to smoothing.

**INTERNATIONAL TRADE**

- A total of 294,834 companies exported goods from the United States in 2015. Of these, 287,835, or 97.6%, were small firms; they generated 32.9% of the United States's \$1.3 trillion in total exports. (Source: ITA)

The North American Industry Classification System (NAICS, pronounced Nakes) was developed as the standard for use by Federal statistical agencies in classifying business establishments for the collection, analysis, and publication of statistical data related to the business economy of the U.S. NAICS was developed under the auspices of the Office of Management and Budget (OMB), and adopted in 1997 to replace the old Standard Industrial Classification (SIC) system (see page xxiii). Below are all relevant NAICS codes and descriptions. For a more detailed explanation of the NAICS, visit [www.naics.com](http://www.naics.com).
