# Introduction

---

The *Financial Post Directory of Directors* has been published since 1931, originally as a biennial publication called *The Directory of Canadian Directors and Officials*, and is now published annually each fall. This 75th edition is proudly published by Grey House Publishing Canada, and is developed from database content provided by Financial Post Data, a division of Postmedia Network Inc.

In addition to the print edition, the Directory is available electronically on Grey House Canada's online platform, Canada's Information Resource Centre (CIRC). Readers can access this in-depth and highly important networking content in the format that best meets their needs. Packages are available for customers who prefer to use both print and electronic formats. For more information, visit [www.greyhouse.ca](http://www.greyhouse.ca).

This 2022 edition of the *Financial Post Directory of Directors* presents an up-to-date list of Canadian business people, with the directorships and offices they hold. It also includes a list of key Canadian companies, both publicly traded and privately owned, with their addresses and the names of their executive officers and directors.

Listings are mainly compiled from information provided directly to the editors from the individuals themselves, or from their companies. Inclusion in the Directory involves no obligation of any kind. No one may pay for a listing; all listings are selected at the discretion of the editors.

Criteria for inclusion of companies in this book include: incorporation in Canada; substantial revenue or assets; and Canadian residency for the majority of the directors. Once a company qualifies for inclusion, its officers and directors automatically qualify for a personal listing in the front section.

## ARRANGEMENT & CONTENT

Introducing this edition of the Directory is a section of new and revised front matter. It contains an updated infographic drawn from data in the book, such as number of women directors, directors' average age and alma mater; a summary of the latest Annual Report Card from the Women's Executive Network and the Diversity Council of Canada; Osler reports on Diversity Disclosure Practices and Executive Compensation in Canada; and the latest rankings from the FP500.

The **Personal Listings** section contains 16,817 directors and executives of Canadian companies. Over 3,027 people have been added to the book this year. These names have an asterisk on the left for easier identification.

Names are listed in alphabetical order. Surnames are printed first, followed by the person's first name, initials, and nickname (if any), followed by abbreviations for any honours and fellowships held. The gender and birth year are shown next, followed by abbreviations for degrees held and the names of schools attended.

Where a listing includes the names of more than one company, as far as possible, the person's principal occupation is shown first, with the start date of this position shown in brackets. Also listed are directorships and executive positions held on other companies. The final item shows previous positions held.

The **Company Listings** section gives an alphabetical listing of 1,434 top Canadian companies, both public and private, with their boards of directors and executive officers. It also shows each company's head office address, main phone and fax numbers, toll-free number, e-mail address and website. One hundred and twenty three companies have been added in this edition, and are indicated by an asterisk before their name. A ‡ symbol before the name indicates that the company is one of Canada's 50 Best Managed Companies.

The **Industrial Classification Index** lists the companies, sorted by general industry type according to the Global Industry Classification Standard (GICS®).

The **Geographic Location Index** lists the names of all the companies carried in the **Company Listings** section, grouped according to the city and province/state of the head office.

An alphabetical list of **Abbreviations** closes the book, providing definitions of common abbreviations used for terms, titles, organizations, honours/fellowships and degrees throughout the Directory.

We acknowledge the valuable contribution of the many directors and company officials who co-operated in checking their listings for this 2022 edition. Data in this book was collected and updated to September 7, 2021.

Every effort has been made to ensure the accuracy of the information included in this edition of the *Financial Post Directory of Directors*. Do not hesitate to contact us if revisions are necessary.
