Guide to U.S. HMOs & PPOs

“Written for both the consumer and the researcher, this work is a vital resource for public, academic and medical libraries.”

-Library Journal

“...the [*Guide to U.S. HMOs & PPOs*] is...the most thorough reference tool for information pertaining to managed health care organizations and personnel throughout the United States...Organized and arranged

alphabetically within state chapters, each listing provides a synoptic overview of each HMO and PPO. As an added bonus, the directory also provides the names, titles, telephone numbers, and e-mail addresses to health care administrators and key decision makers within the industry...Accreditation status, peer review data, for-profit status, and information concerning the federal qualifications of these care providers makes the [*Guide to HMOs & PPOs*] a **must for both public and academic libraries** seeking a one-stop-shopping directory for valuable data about the health care industry.”
