

Milestone Documents of World Religions

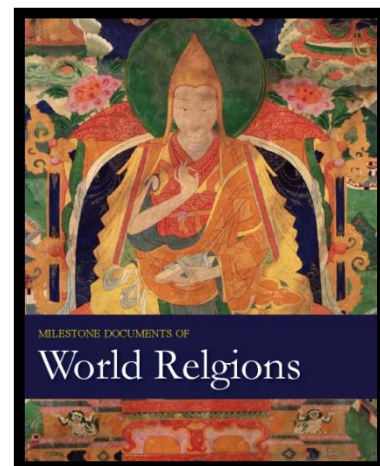

Reviews

“Gr 10 Up—**This unique resource presents significant primary-source material from all major and many minor traditions**, from 2404 BCE to 2002 CE. Each document is accompanied by an overview; context, date, and author information; explanation and analysis; essential quotations; study questions; comments on the work’s audience and religious and societal impact; further reading suggestions; and a glossary. The thought-provoking questions for further study are particularly strong on comparisons... The numerous well-chosen and -captioned grayscale pictures add interest. **Scholarly but jargon-free commentary makes these key documents accessible to students.** Full-text online access is free with purchase.”
-*School Library Journal*

“A handsome set for researchers who want an introduction to the study of primary texts with many useful sources for further study. **Recommended for high school, undergraduate, and large public libraries.**”
-*Library Journal*

“**This wonderfully inclusive volume presents an entire range of modern and ancient religion and belief**, using the original source text so that, as Luther advocated, readers can make sense for themselves. Highly recommended for school and public libraries.”
-*Gale’s Reference Reviews*

“The publication of a three-volume set titled *Milestone Documents of World Religions* might seem, at first glance, to be a bit unusual in the Internet age, when so much material is freely available online. **However, upon closer inspection one can see real value in a unique reference resource such as this...Summing Up:** Recommended. Lower-division undergraduates and above; general readers.”
