The Grey House Performing Arts Industry Guide, 2022

“Now in its 11th edition, this guide includes entries for 9,412 performing arts organizations and resources and the names of 36,643 key contacts. The information is presented in several sections: Dance (702 entries), Instrumental Music (1,124 entries), Vocal Music (553 entries), Theatre (1,718 entries), and Series & Festivals (1,714 entries). These are followed by listings for Performance Facilities (2,823 entries) and Information Resources (778 entries). The entries in the first five sections provide contact information, and much more. The information regarding performance facilities will include contact information and other data (type of stage and stage dimensions, rental contact, staff numbers and budget, seating capacity, etc.). The entries in these first six parts are arranged by state and then by city. Part 7, Information Resources, arranges information alphabetically under 6 subheadings: Associations, Newsletters, Magazines & Journals, Trade Shows, Directories & Databases, and Industry Websites. The book concludes with six indexes: entry name, executive name, facilities, specialized field, geographic, and information resources. **Recommended.**”
