

1-Year Total Return

The rate of return on an investment over a period of one year that includes interest, capital gains, dividends and distributions realized.

3-Year Total Return

The rate of return on an investment over a period of three years that includes interest, capital gains, dividends and distributions realized.

DIVIDEND/YIELD**Dividend \$ (TTM)**

A dividend is defined as a payment made by a corporation to its shareholders. Usually these payouts are made in cash (cash dividends), but sometimes companies will also distribute stock dividends, whereby additional stock shares are distributed to shareholders. This is a TTM figure (trailing twelve months), which is a representation of a company's financial performance over the most recent 12 months. TTM uses the latest available financial data from a company's interim, quarterly or annual reports.

Dividend Yield (TTM)

Dividends paid out each year relative to the share price. Expressed as a percentage and measures how much cash flow an investor is getting for each invested dollar. This is a TTM figure (trailing twelve months), which is a representation of a company's financial performance over the most recent 12 months. TTM uses the latest available financial data from a company's interim, quarterly or annual reports.

SIZE**Market Capitalization (Market Cap) (\$MIL)**

A term used by the investment community to identify companies based on their market capitalization value. Values are displayed in millions.

Enterprise Value (\$MIL)

A measure of a company's total value, often used as a more comprehensive alternative to market capitalization (see Market Capitalization). It includes the company's debt in its calculation and is very important in takeover valuations. Note: Banks do not have enterprise value mainly due to a large variety of the outstanding debt. Values are displayed in millions.

REVENUE & INCOME**Revenue (\$MIL)**

The amount of money a company receives from its normal business activities, usually from the sale of goods and services to customers.

Revenue Growth %

Annual percentage growth in a company's revenue.
